

EGOLF Quality Policy

This was agreed by EGOLF Plenary on 16 October 2008, Resolution 199

1 General

All members shall apply a systematic and disciplined approach to quality in order to meet consistently their technical and organisational objectives and the declared expectations and needs of their clients.

All members shall develop continuously and improve their quality and technical competence according to the EGOLF strategy for continuous quality improvement.

2 Testing activities - applicable to all members undertaking fire testing

2.1 All members shall be accredited to EN ISO/IEC 17025.

2.2 All members shall implement EA 08 'Interpretation of EN ISO/IEC 17025 for fire laboratories'.

2.3 All members shall have at least one individual trained on an EGOLF Harmonisation Course by the end of 2008 for every test method which they perform for which there is a course.

2.4 All members are expected to participate in all relevant round robins organized by EGOLF.

3 Inspection activities - applicable to all members undertaking inspection, independent of certification activities accredited to EN 45011

All members shall be accredited to EN ISO/IEC 17020 by the end of 2008.

4 Certification activities - applicable to all members undertaking certification

All members shall be accredited to EN 45011 by the end of 2008.
